

8R/CT Portfolio project 2015

Resources: [this document is also in Resources\CT\Y8\83 Portfolio folder]

- 1) Getting started, What the task is, AP div guide:

[Student website](#) (Google "hockerill students"; first link in list; select CT, Y8)

- 2) A beginners cookbook to Dreamweaver

<http://helpx.adobe.com/dreamweaver/using/getting-started.html> (Google "dreamweaver tips for beginners"; second link in list)

- 3) Dreamweaver Tutorial – 5 – Adding Hyperlinks

<https://www.youtube.com/watch?v=R1kwqYORn40> (You tube "dreamweaver adding hyperlinks" ; third in list)

- 4) Use HTML Formatting (Text formatting)

<http://helpx.adobe.com/dreamweaver/using/html-formatting.html> (Google "dreamweaver formatting text" ; first link)

- 5) Make a new link to a file you have copied into your site folder

<http://helpx.adobe.com/dreamweaver/using/create-link-word-or-excel.html>

You should know how to.....

- a. Tell dreamweaver which folder is your site folder
- b. Make a new html page and save it
- c. Link from one html page to another
- d. Make AP divs inside each other so they move as one (insert → layout object)
- e. Copy across all the files you want to link to into the site folder
- f. Enter text into correct div and format it
- g. Insert Hyperlinks, Insert images (Insert menu or properties panel)
- h. Change page properties
